SITUATION

In the past year Andreas Håtveit has emerged as one of the leading freeskiers on the international scene. He lives in Norway but trains around the world, and with the backing of Rossignol and Nike ACG, he has a full calendar of events, competitions and PR.

With his big win at the half pipe in Whistler and a 3rd place at the X Games and US Open Big Air, Andreas has demonstrated that he is undoubtedly one of the best all round skiers in both half pipe and big air.

When he is not on the mountain, Andreas enjoys fly-fishing, skating, bowling and mini golf.
